Commissioners Cannot Return Fee Paid at the Pound.

Mr. Joseph Moss, Executive Mansion, again defined their position in the matter of dogs captured for being at large without muzzles. Mr. Moss' dog, it appears, was taken up by the poundmaster's force re-cently, and he was compelled to pay the isual fee of \$2 before he could secure its release. He filed a protest with the Commissioners, requesting that the amount paid be returned to him.

In reply the Commissioners state that the 'infamous law" of which Mr. Moss complained is an act of Congress, which they feel compelled to enforce on account of the existence of hydrophobia in the District, as certified to them by the Secretary of Agri-

existence of hydrophobia in the District, as certified to them by the Secretary of Agriculture.

"The Commissioners would state," they wrote Mr. Moss, "that where dogs have been found with the muzzle attached to them, although not in a proper position, but evidencing a willingness on the part of the owners to comply with the law, the poundmaster has been instructed, if possible, to return such dogs to their owners, or, at least, not to deal with the cases so severely as if the dogs had no muzzles attached. In the case of the dog that you own, it was evident that you were entirely willing to comply with the law and bought a muzzle for that purpose, but the Commissioners cannot be responsible for the fact that the muzzle was stolen or lost from a dog, and in this case the dog was found on the street without a muzzle and your man presented himself at the pound later with the muzzle in his hand. The Commissioners feel that they have no authority of law to refund the amount paid to redeem the dog from the pound."

Grand Lodge Officers Entertained by Meeting of the Agricultural and Industrial Fair Association.

Program Presented, Including Vocal Terms of the Charter Under Discussion-Elimination of Horse Racing Feature-Briefs.

> Evening Star Bureau, No. 701 King st., Bell Telephone No. 106, ALEXANDRIA. Va., March 21, 1900. The Agricultural and Industrial Fair Association of Northern Virginia held a called meeting late yesterday afternoon in the rooms of the Business Men's League for the purpose of considering the charter recently granted the association by the legislature of Virginia. Vice President John Yarrow W. Hawxhurst kept the minutes. Mr. M. B. Harlow presented the charter as passed by the legislature. He stated that it had passed the house of delegates in its original put into the hands of a committee and so amended as to come under the provisions of the Maupin law, which prohibits the making of books or selling of pools within the state. The charter as first proposed contained a clause exempting the association from the operation of the Maupin law for a period of thirty days in each year. Considerable discussion followed the reading of the charter and the question was brought up as to whether the association could be made a success without the horse-racing feature. Several of the members declared that if the enterprise was to depend for success upon gambling it had better be dropped. This seemed to be the consensus of opinion. Mr. Church called attention to the broad and liberal scope of the charter in its present form and said he believed success could be achieved under it. He suggested the calling of a mass meeting of those interested at an early date. This was referred to the executive committee. It was decided to have literature concerning the association printed and distributed. It was also decided to open subscriptions with the understanding that they will be returnable if, at a mass meeting soon to be held, it is decided not to continue the organization. Judge Ashton of King George county was present and entertained the association with a short address.

It was opened in the circuit court for Alexandria county on a bill in equity, filed by the plaintiff. An injunction and receiver were asked for, and after hearing argument at Manassas Judge Nicol announced that he would name a receiver today and grant an injunction under bond of \$6,000. The manner of settlement of the case, therefore, caused some surprise.
